

world-class safety solutions

DIRECTOR'S **DESK**

Progress for me has never been a dream. It has always been a distant reality and once one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that I started Mark Safety Appliances in 1997 as a PPE trading firm. I started the business from a small capital and build office in my house itself.

I always perceived my company as a unit that could make a difference with its quality and competitively priced products. Quality was always my first priority and after starting a safety business led me to maintain and build it further. Overcoming challenge after challenge, I expanded the company by adding comprehensive product portfolio, along with strong team of employees.

Right from the beginning till date, I believe in providing the best solutions to end users and not just delivering the products. The measure of any trading company is how well it reacts to changes in the market and works on improvising it. My primary focus has always been to improvise and overcome the shortcomings to receive ultimate satisfactory feedback from my customers. My team is committed to company's core values- integrity, honesty, competency and respect. Our commitment to these ideals must be unwavering. With the support of my team and customers, I am confident that the company will continue to scale milestones of excellence for years to come.

SAMA - Appointed as a co-head for Gujarat chapter.

Our best is yet to come...

To deliver world class industrial safety products and render effective and expeditious services to our customers.

We thrive to become leading safety solutions provider and believe that; saving human life and property by providing quality products and services shall be our prime focus and to deliver it effectively, our moral responsibility. To prevent hazards, control potential loss and raise awareness about occupational safety and health is our ultimate goal.
