

FlareDefend™

PROTECTING FIRE FIGHTERS

EN 469 FIRE FIGHTING SUIT

ENGINEERED FOR EXTREME PROTECTION

The Flare Defend™ Fire Fighting Suit provides superior protection for firefighters in extreme conditions. Built with advanced textiles, it shields against heat, flames, and water while ensuring mobility and comfort for high-risk operations.

Certified under the (EU) 2016/425 PPE Regulation, each suit is CE marked and fully compliant with EN 469:2020, the European Standard for protective clothing used in Firefighting.
